## 8. FINDING OUR PRACTICE SERVERS ONLINE

### 8.1. Click on ‘Drive’ - ‘Online’ and click on the search icon.

### 8.2. You will find our practise servers named “Rev-it” .

### 8.3. The Passwords for the server will be Rev-it@2021

## 9. Issues you may encounter :

9.1. CheckSum error - The CheckSum error usually occurs when some data files have been modified or mainly if the Version of your games does not match with the server.

Fix : Update the Game from steam and ‘Verify the Integrity of the game files’

If you have modded the game, such as the track/car being used, please return said files to its original state.

9.2. AC.exe error with error Code (0xc000007b) :

This application error will popup if there is a problem with your display drivers or mainly DirectX Drivers.

This error could occur if windows was not updated properly or your display drivers are not compatible.

Fix : Boot the game up from steam if you haven't already,

At Least this way some of your missing Drivers such as the DirectX, C++ drivers will be installed.

9.3. Missing Track or Car :

This usually happens if you are missing a CSP update.

Fix : Ensure the minimum or higher CSP driver needs to be installed.

Also ensure you have installed the ContentManager.exe and are not using an older/different version of the launcher.
